☎ +977-9767285324 | ✉ sudeep.poudel@yahoo.com | 💻 sudipxo | 📍 Kathmandu 44600, Bagmati

SKILLS

Languages: Python, TypeScript, SQL, Bash

Frameworks Libraries: FastAPI, Next.js, Node.js, React

Databases: PostgreSQL, MySQL, Qdrant, ChromaDB

Machine Learning: NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch, Hugging Face Transformers

DevOps Tools: Docker, Linux, Coolify, Git

EXPERIENCE

Technimus LLC.

Feb. 2026 – Present

Software Engineer

Kathmandu, Nepal

- Developed and deployed a **time-series forecasting platform** using FastAPI (Python) to process historical datasets and generate predictive insights.
- Designed and optimized **PostgreSQL data pipelines** for large-scale data ingestion, transformation, and retrieval supporting machine learning workflows.
- Built an **AI-powered visa interview simulator** using Next.js and Node.js, integrating Hugging Face models for ASR, LLM inference, and TTS capabilities.
- Developed a **conversational BI assistant** enabling **natural language-to-SQL (NL2SQL)** querying for CRM platforms using semantic modeling and Retrieval-Augmented Generation (RAG).
- Containerized and deployed application services using **Docker**, managing self-hosted infrastructure and application delivery through **Coolify** on Linux servers.
- Built and deployed a **recommendation engine** using vector embeddings, reranking pipelines, and vector databases to improve personalized content retrieval.

GritFeat Solutions

Jul. 2025 – Nov. 2025

ML Development Associate

Kathmandu, Nepal

- Contributed to the development of **machine learning solutions**, performing data preprocessing, model training, evaluation, and performance analysis.
- Developed components of **DF-SCAN**, a deepfake detection system, using **PyTorch** for spatio-temporal fusion network implementation and **React** for the application interface.

Fusemachines

Apr. 2025 – Oct. 2025

Artificial Intelligence Fellow (Fellowship Program)

Kathmandu, Nepal

- Completed advanced training across the machine learning lifecycle, including data analysis, supervised and unsupervised learning, and deep learning methodologies.
- Applied concepts in **CNNs, RNNs, GANs, and LLMs** through hands-on coursework and projects.
- Developed and evaluated machine learning models using **PyTorch** while gaining exposure to MLOps and deployment practices.

eSewa Ltd.

Apr. 2025 – Jun. 2025

Career Climber Program Cohort

Kathmandu, Nepal

- Completed training in the **Software Development Life Cycle (SDLC)**, software engineering practices, and collaborative development workflows.
- Implemented **CI/CD pipelines**, automated testing, and AI-assisted development workflows through project-based learning.
- Designed and delivered **TaskPilot**, an AI-powered mobile task management application, as a capstone project.

EDUCATION

Institute Of International Management Science

Bachelor of Computer Science (Honours)

Mar. 2022 – Jan. 2026

Kathmandu, Nepal

- **GPA:** 3.74/4.00
- **Relevant Coursework:** Software Engineering, Data Structures & Algorithms, Machine Learning, Parallel Computing, Big Data Analytics, Database Management Systems, Web Application Development, Computer Vision, Natural Language Processing
